Industry-Leading Protection

Prestone®

Prestone Total Protection

Products designed to make your life better.

Since inventing ethylene glycol coolant in 1927, Prestone has been the leader of antifreeze + coolant technology. Solving the issue of water (original coolant) from freezing was the original problem. Since then, Prestone has invested countless hours of research and development on creating new formulations that protect the cooling system and engine from corrosion, and that enable optimum engine conditions for longer engine and cooling system life.

We always rise to every challenge, which today includes new materials, 3D printing, CAB brazing, and electrification. We strive for products that make vehicle ownership better and easier to manage.

TOTAL PROTECTION.

**Industry-Leading Protection
& Technology**

**#1 OEM North American
Manufacturer**

**Yesterday, Today &
Tomorrow**

Only Prestone provides this level of Protection & Technology!

Dear Industry,

We are Prestone®. We are innovators. And since 1927, we at Prestone have consistently led the industry by providing the finest automotive fluids in the world. **YESTERDAY**

Prestone's close relationship with global vehicle manufacturers is what separates us from other coolant manufacturers. We solve problems for them and with them. Prestone is not alone, but we are proud to be viewed by these partners as an expert and a trusted voice.

Our patented fluids go beyond just basic antifreeze+coolant protection. Other coolant manufacturers actually rely on allowing a layer of corrosion to cover the cooling system, and then only strive to slow that corrosion and its damaging effects over time. But Prestone leads the industry by preventing *all* corrosion before it starts, resulting in an engine system that runs as efficiently as intended. **TODAY**

What is next from Prestone? Even more technological innovation. Today's automotive manufacturers need protection for ever smaller yet more powerful engines. These small but powerful engines tend to have less space for air to flow, requiring coolant to work harder to keep them cool. Today's coolants are also asked to work with a wider variety than ever in engine metals, plastics, rubbers and even 3D printed parts...all without damaging them.

Hybrid-power and electric-power vehicles add even more complexity. Water and batteries do not naturally go well together, and heat kills batteries...especially with the high-speed charging expectations of today and tomorrow. Prestone is thus working closely with today's leading vehicle manufacturers on low-conductive coolant and immersive coolant technologies to safely remove heat in all of these new and challenging situations.

As always, the automotive world has asked Prestone to help them change the industry. And that is what we at Prestone will do. **TOMORROW**

Thank you for trusting Prestone!

CLAIMS INDEX:

MAX All Vehicles AFC

*Over the total life of the coolant **Based on US DOT national avg. miles driven in 2019. The average number of miles driven in 2019 was 14,664 miles. 350,000 miles/14,664 miles per year = 23.9 years. Prestone.com or 1-888-269-0750 for all guarantee requirements and limitations ***Fluid guaranteed for the life of your vehicle. This product is guaranteed for 15+ years/up to 350,000 miles of vehicle life under normal driving conditions when a complete cooling system flush and fill is performed, and proper cooling system maintenance is followed. Always follow vehicle owner's manual for top off requirements, change intervals and specified maintenance.

OE American Vehicles AFC

*Over the total life of the coolant **Fluid guaranteed for up to earlier of 15 years or 350,000 miles of vehicle life under normal driving conditions†. To achieve fluid life guarantee, a complete cooling system flush/drain and fill must be performed and proper cooling system maintenance followed. Always follow vehicle owner's manual for top off requirements, change intervals and specified maintenance. Guarantee may be subject to other terms and conditions – please visit Prestone.com or call 1-888-269-0750 for further information.

†Maximum fluid life guarantee may not apply to hybrid or electric vehicles. Refer to vehicle manufacturer for proper coolant choice and recommended service intervals.

OE Asian Vehicles AFC

*Over the total life of the coolant **Fluid guaranteed for up to earlier of 15 years or 350,000 miles of vehicle life under normal driving conditions†. To achieve fluid life guarantee, a complete cooling system flush/drain and fill must be performed and proper cooling system maintenance followed. Always follow vehicle owner's manual for top off requirements, change intervals and specified maintenance. Guarantee may be subject to other terms and conditions – please visit Prestone.com or call 1-888-269-0750 for further information.

†Maximum fluid life guarantee may not apply to hybrid or electric vehicles. Refer to vehicle manufacturer for proper coolant choice and recommended service intervals.

OE European Vehicles AFC

*Over the total life of the coolant **Fluid guaranteed for up to earlier of 5 years or 150,000 miles of vehicle life under normal driving conditions†. To achieve fluid life guarantee, a complete cooling system flush/drain and fill must be performed and proper cooling system maintenance followed. Always follow vehicle owner's manual for top off requirements change intervals and specified maintenance. Guarantee may be subject to other terms and conditions – please visit Prestone.com or call 1-888-269-0750 for further information.

†Maximum fluid life guarantee may not apply to hybrid or electric vehicles. Refer to vehicle manufacturer for proper coolant choice and recommended service intervals.

Nitrite Free Cor-Guard

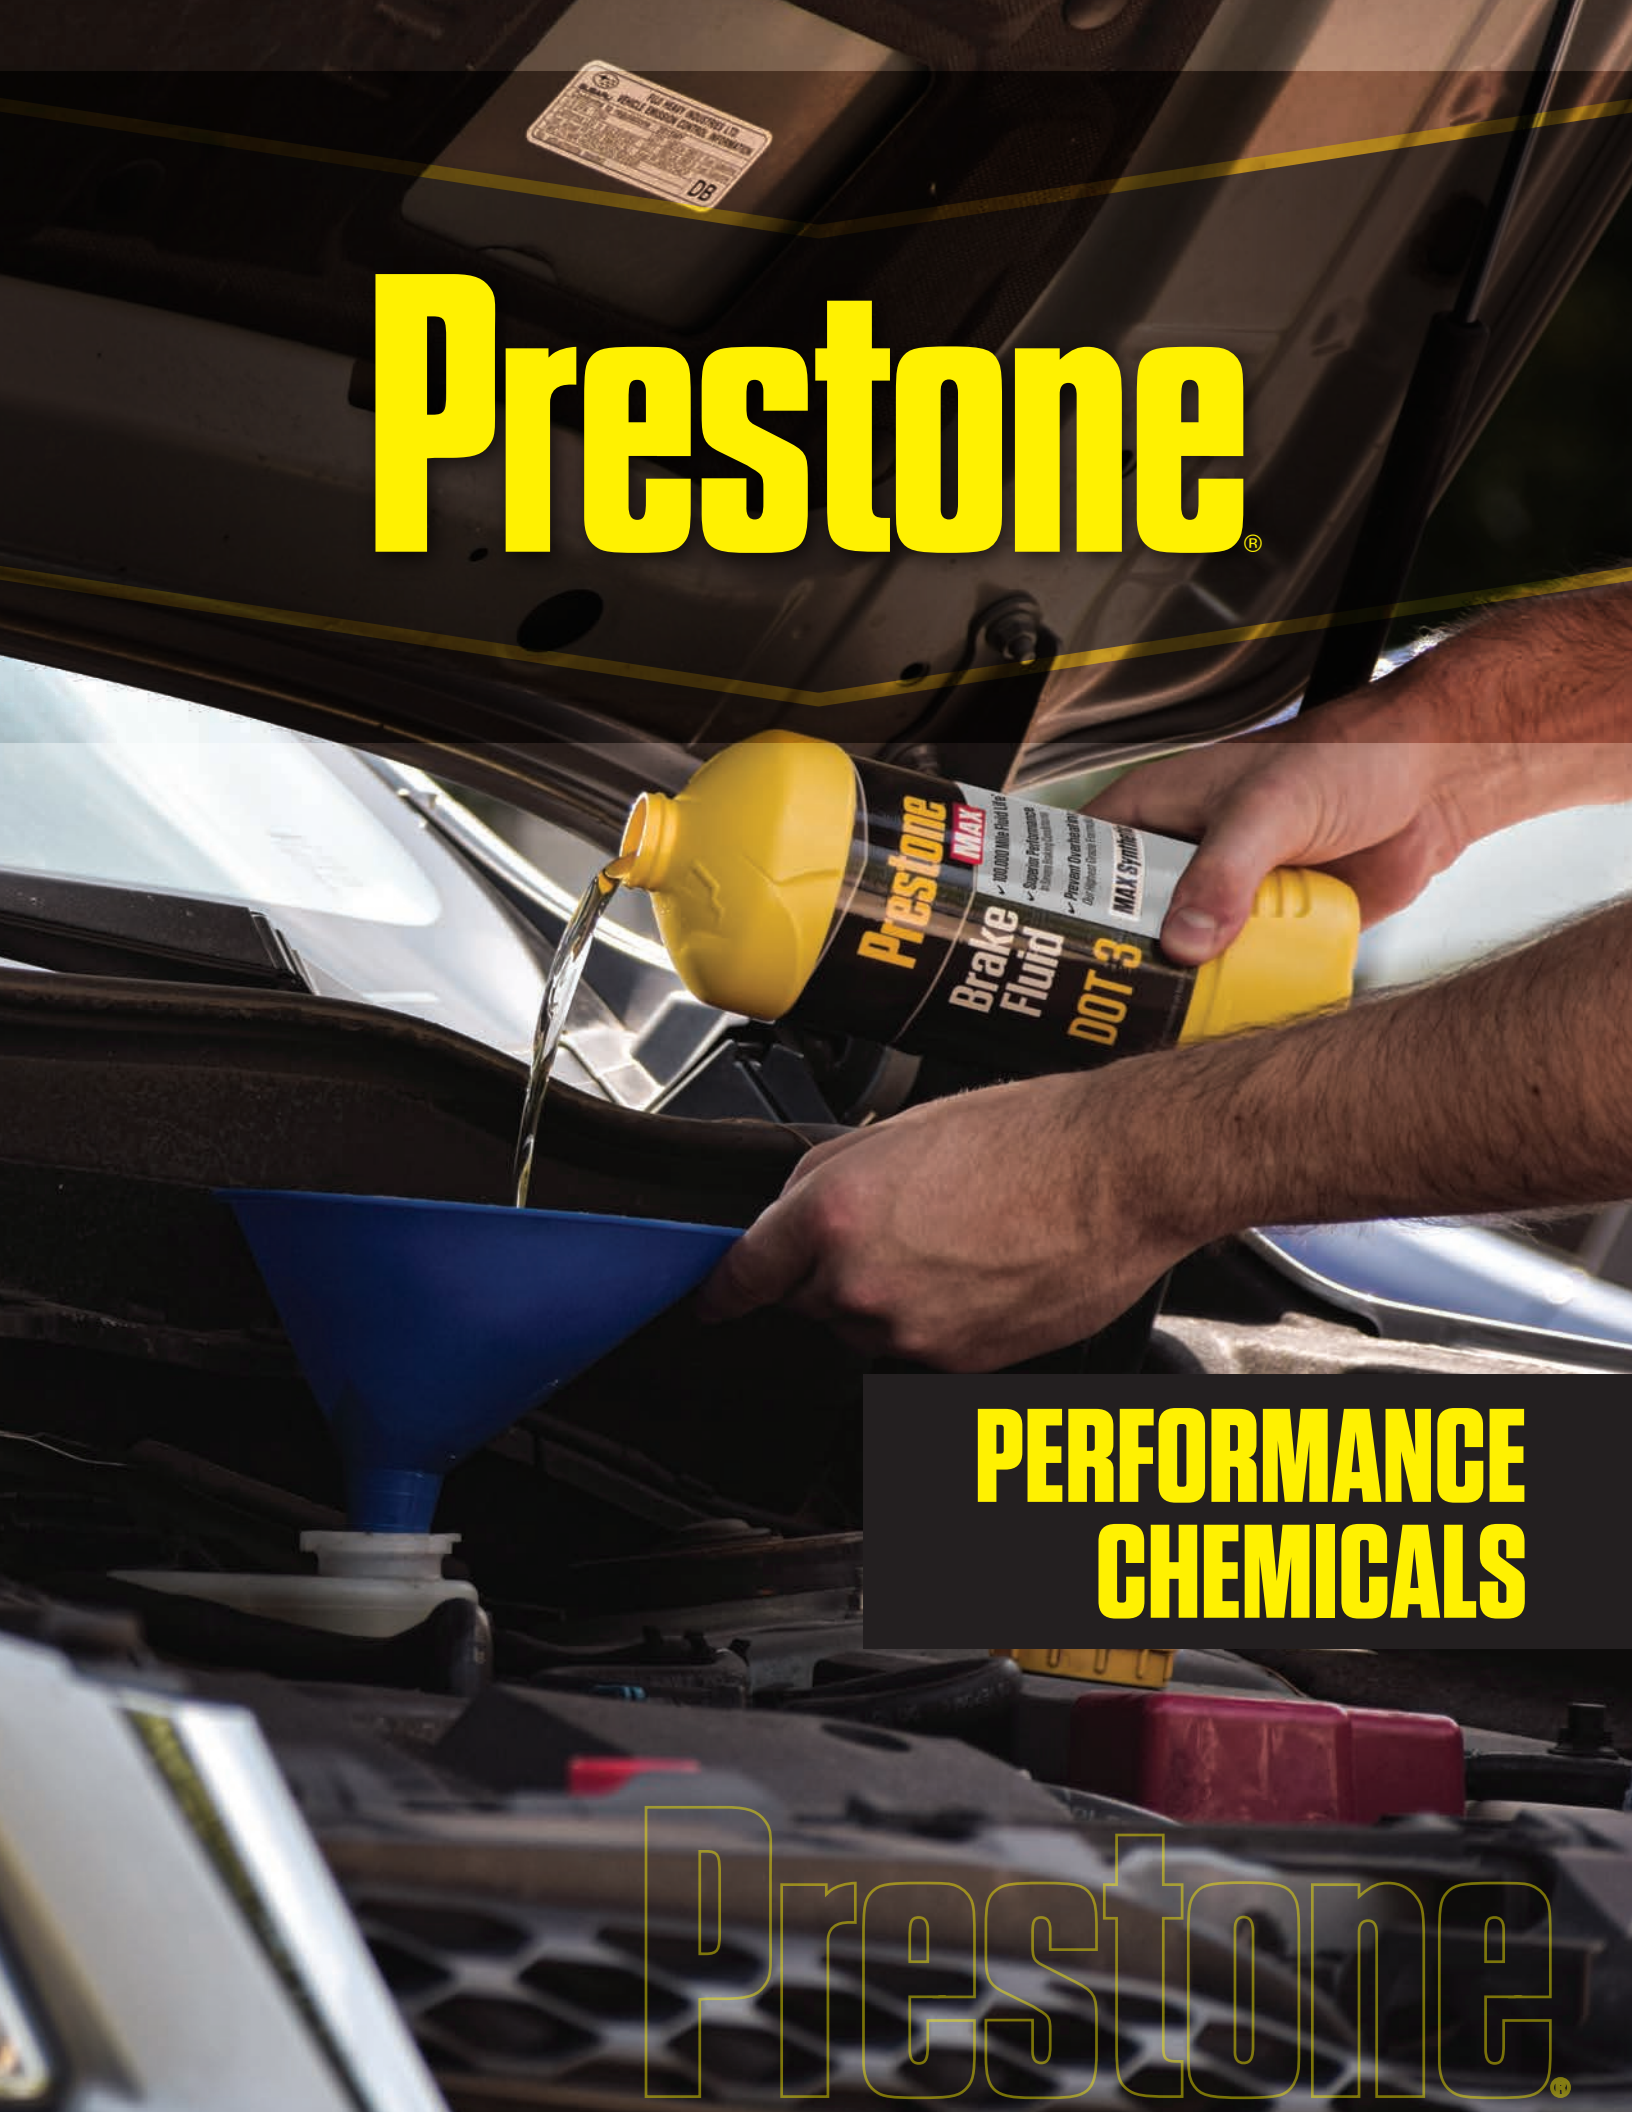

*Provides extended life protection which meets the vehicle manufacturer recommended change intervals for all DOT Truck Classes including up to 1,000,000 miles for Class 8 vehicles, when properly flushed, filled and maintained using only Heavy Duty Nitrite Free Coolant with Cor-Guard additive. Prestone.com or 1-888-269-0750 for all guarantee requirements and limitations. Class 8 wet sleeve liner applications. With a complete flush/drain and fill per manufacturer's recommendations. Always refer to the vehicle manufacturer owner's or service manual for the recommended change intervals, cooling system capacity, and specific cooling system service instructions.

Nitrite Free Yellow

*Fluid service life guaranteed up to earlier of 750,000 mi. or 15,000 hrs. Follow steps to achieve service life: (1) Perform cooling system flush, then fill cooling system with proper mixture of PRESTONE COMMAND® Nitrite Free ELC Concentrate and high quality water. (2) Top off coolant levels as necessary using only PRESTONE COMMAND® Nitrite Free ELC Prediluted. (3) Test coolant every 6,000 hrs or 1 yr intervals using refractometer to test correct coolant/water mixture and using test strips to assess pH and nitrite level for any contamination. (4) Add PRESTONE COMMAND® Nitrite Free ELC Prediluted at 600,000 mi. and as necessary to maintain inhibitor level and pH. (5) Use new coolant if replacing a cooling system part. Guarantee may be subject to other terms and conditions – please visit Prestone.com or call 1-888-269-0750 for further information. PRESTONE COMMAND® and COR-GUARD® are registered trademarks of Prestone Products Corporation. All other trademarks are those of their respective owners.

Nitrited Red

*Fluid service life guaranteed up to earlier of 750,000 mi. or 15,000 hrs. Follow steps to achieve service life: (1) Perform cooling system flush, then fill cooling system with proper mixture of PRESTONE COMMAND® Nitrited ELC Concentrate and high quality water. (2) Top off coolant levels as necessary using only PRESTONE COMMAND® Nitrited ELC Prediluted. (3) Test coolant every 6,000 hrs or 1 yr intervals using refractometer to test correct coolant/water mixture and using test strips to assess nitrite level and pH. (4) Add PRESTONE COMMAND® Nitrited ELC Prediluted or a NOAT coolant extender in accordance with OEM recommendations at 300,000 mi and 600,000 mi and as necessary to maintain nitrite level and pH. (5) Use new coolant if replacing a cooling system part. Guarantee may be subject to other terms and conditions – please visit Prestone.com or call 1-888-269-0750 for further information. PRESTONE COMMAND® is a registered trademark of Prestone Products Corporation. All other trademarks are those of their respective owners.

The image shows a close-up of a person's hands pouring a clear liquid from a yellow bottle into a car's brake reservoir. The bottle is labeled 'Prestone MAX Brake Fluid DOT 3'. A blue funnel is placed in the reservoir's opening. The background shows the engine compartment of a car with various components and a battery visible.

CHEMICALS**

Prestone®

AS410Y

Prestone® MAX Brake Fluid DOT 3

- ✓ 100,000 Miles Fluid Life
- ✓ Superior Performance In Severe Braking Conditions
- ✓ Prevent Overheating & Brake Fade Our Highest Grade Formula

Compatibility	All ABS, Disc & Drum Systems Requiring DOT 3 Fluid
Fluid Type	Synthetic
Specification	§571.116, SAE J1703
Corrosion Protection	Prevents corrosion of all metals within the braking system

READY TO USE	PACK	UPC
AS410Y	6/32 oz.	7 97496-88170 0

Our Highest Grade Formula Maximizes Performance vs. DOT Standard

500°

400°

*Prestone MAX DOT 3 has our highest dry boiling point 496°F compared to the DOT standard 401°F.

- ✓ Our best protection against performance decline due to water absorption
- ✓ Our best at preventing overheating and brake fade
- ✓ Our longest life brake fluid

AS810Y

Prestone® MAX Brake Fluid DOT 4

- ✓ 75,000 Miles Fluid Life
- ✓ Superior Performance In Severe Braking Conditions
- ✓ Prevent Overheating & Brake Fade Our Highest Grade Formula

Compatibility	All ABS, Disc & Drum Systems Requiring DOT 4 Fluid
Fluid Type	Synthetic
Specification	§571.116, SAE J1703 & J1704
Corrosion Protection	Prevents corrosion of all metals within the braking system

READY TO USE	PACK	UPC
AS810Y	6/32 oz.	7 97496-88172 4

Our Highest Grade Formula Maximizes Performance vs. DOT Standard

500°

450°

*Prestone MAX DOT 4 has our highest dry boiling point 505°F compared to the DOT standard 446°F.

- ✓ Our best protection against performance decline due to water absorption
- ✓ Our best at preventing overheating and brake fade
- ✓ Our longest life brake fluid

Prestone ANTIFREEZE + COOLANT

KEEPS YOUR ENGINE RUNNING OPTIMALLY

Purpose of Antifreeze + Coolant

Coolant's job is to maintain the engines temperature at the right temperature for fuel efficiency & part performance

Why Prestone

Prestone's patented formula stops erosion, rust & corrosion which damages parts of the system.

Prestone Protected

Protecting Parts from Rust, Erosion and Corrosion
Which cause damage & failure

1

Prestone

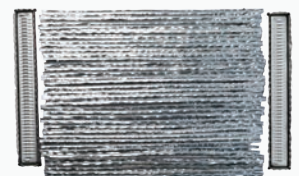

Engine Water Pump

Cooling System
Hoses

4

Prestone

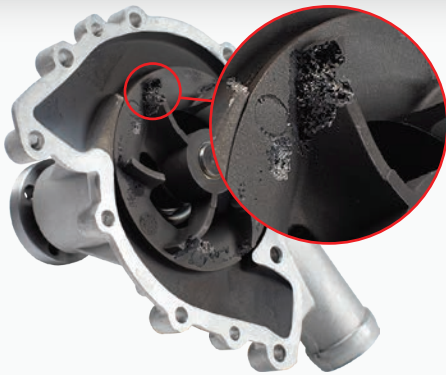

Engine Block
Cooling Passages

ORDINARY COOLANT PROTECTS FOR FREEZE & BOIL OVER BUT NOT THE PARTS - LIKE PRESTONE DOES

1

Engine Water Pump - Ordinary Coolant

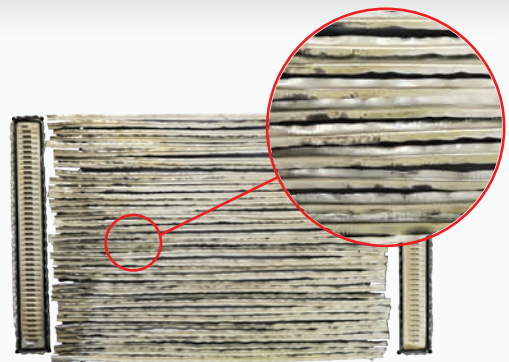

Water pumps move cooling system fluids through the whole engine.

-  Ordinary coolant allows erosion & corrosion
-  Erosion reduces fluid flow, reducing heat removal
-  Metal deposits land as buildup elsewhere

2

Radiator - Ordinary Coolant

Radiators are the key to heat removal for cooling systems

-  Build-up on radiator fins reduce the heat removal capabilities
-  Cause higher bulk temperature - which leads to faster part failure

3

Cooling System Hoses - Ordinary Coolant

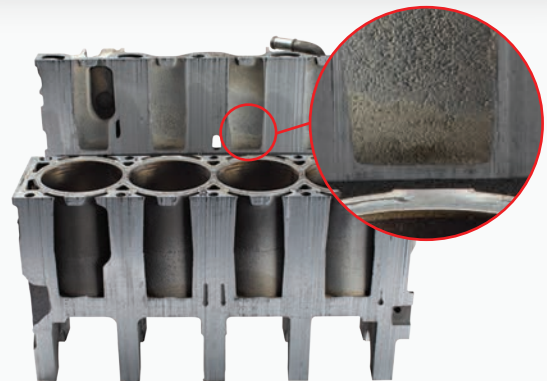

Hoses connect all the key parts of a cooling system

-  Degradation of hoses/gaskets cause leaks, malfunctions & cracks - Leaving people stranded
-  Build up on the inside can create flow issues.
-  Buildup can also break away causing clogging issues elsewhere.

4

Engine Block Cooling Passages - Ordinary Coolant

Engine blocks have cooling passages so heat can be pulled away from the pistons & cylinders

-  Build-up & Blockage create hot spots + longer term risk

**NOT ALL ANTIFREEZE COOLANT
IS THE SAME**
